SAHIL BRAHMBHATT

SOFTWARE ENGINEER

Ahmedabad, Gujarat | sahil.brahmbhatt710@gmail.com | +91 96240 26576
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer skilled in the MERN stack (MongoDB, Express.js, React.js, Node.js) with a strong foundation in JavaScript, REST APIs, and responsive web design. Experienced in building secure, database-driven web applications with CRUD functionality, JWT-based authentication, and clean, maintainable code. Strong grasp of data structures, algorithms, and object-oriented programming, with a track record of delivering functional academic and personal projects end-to-end. Eager to apply proven problem-solving skills and modern development practices in a collaborative engineering team.

TECHNICAL SKILLS

Languages: C, Java, JavaScript, Python, SQL, HTML5, CSS3
Frontend: React.js, Bootstrap, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Database: MongoDB, MySQL
Tools & Platforms: Git, GitHub, VS Code, Postman, npm, XAMPP
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), CRUD Operations, Authentication

PROJECTS

Organ Donation Management System | GitHub
ASP.NET Web Forms, VB.NET, SQL Server LocalDB, HTML, CSS, Bootstrap, JavaScript

- Developed a web-based Organ Donation Management System to manage donor registrations, patient requests, and organ donation records.
- Implemented CRUD operations, form validation, and SQL Server LocalDB integration for secure and efficient data management.
- Designed a responsive user interface using HTML, CSS, Bootstrap, and JavaScript to improve usability across devices.
- Built an admin dashboard to manage donors, patients, and organ donation records efficiently.

JARVIS ARC – AI Virtual Voice Assistant | GitHub
Python, Eel, HTML, CSS, JavaScript, SQLite

- Developed a desktop AI virtual voice assistant with a voice-controlled interface using Python and Eel.
- Implemented speech recognition and text-to-speech for seamless hands-free interaction.
- Built voice-command features to launch applications, open websites, manage files, and execute system commands.
- Integrated SQLite to store commands, conversation history, keywords, and user preferences.
- Designed a responsive web-based interface using HTML, CSS, and JavaScript.

EDUCATION

Master of Science (M.Sc.) in Information Technology *2025 – Present*
Faculty of Computer Applications & Information Technology (FCAIT) | Current CGPA: 7.96 / 10

Bachelor of Computer Applications (BCA) *2022 – 2025*
Silver Oak College of Computer Application | CGPA: 8.25 / 10

CERTIFICATIONS

- Getting Started with Full Stack Development
- Introduction to Frontend Development
- Introduction to Figma
